

TROTON BRAYT

ONE STEP PREMIUM

DESCRIPTION

BRAYT One Step Premium is an extremely efficient new generation polishing compound. Thanks to its high quality aluminum oxides content, it guarantees great effect in an easy one-step process. Quickly eliminates grit 1500 sanding marks and signs of wear ensuring the achievement of the perfect glossy finish. Optimal modern formulation prevents surface overheating and allows for easy cleaning.

PRODUCT BENEFITS:

- Removes sanding traces from 1500 grit
- Very economic in use
- Can work with all types of polishing machine
- Can work with all types of polishing pads
- Suitable for all types of coating
- Does not contain fillers
- Applicable also to fresh, polymerized paints
- Easy to use
- For machine or manual processing
- Perfect for manual processing on hard to reach places

PROCESSING

Manual work, mechanical work (rotary, orbital)

RECOMMENDED BRAYT APPLICATORS

Hard polishing foam (yellow), soft polishing foam (grey), yellow lambswool, white lambswool, microfiber cutting pad, orange peel removal pads: „Jeans”, „Corduroy”

DIRECTIONS FOR USE

- Apply small amount of One Step Premium compound on the polishing pad or surface to be treated
- Polish with an orbital polisher in a speed range of 1200-1600 RPM (max. 2000) applying light or medium pressure
- Polish until all scratches have been removed
- Clean any compound residue with a microfiber cloth
- Change the polishing pad to a soft finishing foam and polish until full gloss is achieved.
